

# Off The Road

## Carpenters

When the day is done  
And the sun is sinking low  
When you see the light  
And you've been most everywhere  
You go, you go When the traffic's slow  
Break lines lined up for miles and miles  
And you know the end is not in sight  
You can never take your eyes  
Off the road, off the road When you're all alone  
And you've been driving through the night  
And you know the end is not in sight  
You can never take your eyes  
Off the road, off the road
