Unfriend You

Greyson Chance

I really thought you were the one
It was over before it begun
It's so hard for me to walk away
But I know I can't stay
You're beautiful and crazy too
Maybe, that's why I fell into you
Even though you would pretend to be
You were never with me
(Chorus)
So it's over, yeah, we're through
So Imma unfriend you
You're the best liar ever knew
So Imma unfriend you
'Cause I should have known right from the start
I'm deleting you right from my heart
Yeah, it's over
My last move is to unfriend you
I thought in time that you could change
That my time and love would heal the pain
I didn't want this day to come
But now all I feel is numb

(Chorus)
So it's over, yeah, we're through
So Imma unfriend you
You're the best liar ever knew
So Imma unfriend you
'Cause I should have known right from the start
I'm deleting you right from my heart
Yeah, it's over
My last move is to unfriend you
You come onto everybody
Everybody all the time
You give up to anybody
What I thought was only mine
(Chorus)
So it's over, yeah, we're through
So Imma unfriend you
You're the best liar ever knew

So I will unfriend you
'Cause I should have known right from the start
That you didn't have a human heart
Yeah, it's over
My last move is to unfriend you
So Imma unfriend you
So Imma unfriend you
