

# Last Place You Look

## The Get Up Kids

The grass is always greener  
As I'm sure that you've found  
And if I find my way back on the last leg of this trip  
I'm betting I'm finding you there As long as it's constantly changing  
As long as it's constantly sound  
There's no sense of impending danger There's no sense in hanging around for the winter  
If I'm not going to be in your arms wrapped around me  
What have I got if you're there? We'll be home in December  
The leaves don't fall from the trees  
As long as you remember you are always with me We'll be home in December  
The leaves don't fall from the trees  
As long as you remember you are always with me It's not my place to find it  
Not something that I get to choose  
Don't be scared 'cause you're not something I'm willing to lose And I'll bet you find it in the last place you look  
And I'll bet you find it in the last place you look
