Search Party

Enter Shikari

I know that we're gonna repeat history, unless
we sort this out
I know that we've gotta find something new, something new
Now my crew is 6 thousand millions strong
But we're not learning from
A history of conflict and violence
And ownership and the power to silence
I know that we've gotta find something new
Whoa! Whoa! (2x)
Retracing all our steps we,
sent out the set back search party
To locate the barriers, that lock us down
Phenakistoscope is spinning
Flashbacks to your beginnings
The repetition that, you found, you found
Now my crew is 6 thousand millions strong

But we're not learning from
A history of conflict and violence
And ownership and the power to silence
I know that we've gotta find something new
Whoa! Whoa! (2x)
I know that we're gonna repeat history, unless
we sort this out
I know that we've gotta find something new, something new
All hands on deck!
We've gotta scrub these fuckers out !
All hands on deck!
I know that we've gotta find something new
Whoa! Whoa! (4x)
I know that we're gonna repeat history, unless
we sort this out
I know that we're gonna find something new, something new
