Advisory - the following lyrics contain explicit language:

Smashing through the boundaries
Storming through the burning fields
Stand before the evil one, on towards the molten sun
Falling under skies of pain Still we're searching endlessly
Crashing over seven seas
Torturing the winter skies riding over plains of ice
Shadows in the fields of the slain Crashing steel and raging fury
Smash the quest destroy their army
Crush the legions of the twilight
Templars of steel will burn Cry far away, as we reach for the day
Blasting our way through the punishment and the pain
Reach for the world, as the sky begins to fall
Rising through the darkened ashes praying that we'll see you all Far away, will our eyes now see the day
For today, the everlasting eternal sun
Washed away, the dreams of a brighter day
Forever hold the dream inside
The chance to fight another fight
The breaking hearts that stand for all our lives
Live tonight Watch you die, I watch you die inside
While fear controls your life
Then reject this animosity
That killed so many minds You feel the power deep within
The fear you hold inside
Just to find the reason for the treason
Now you will be mine Screams of pain in death descending
We'll rise again from hell defending
Burn their hearts within the fire
Warriors of light will be slain Rise through the pain, like the sun will rise again
Day after day but the memories never change
Stand before the storm, as the last horizon falls
Blinded by the vision of the innocence of our souls Far away, will our eyes now see the day
For today, the everlasting eternal sun

Washed away, the dreams of a brighter day
Forever hold the dream inside
The chance to fight another fight
The breaking hearts that stand for all our lives, live tonight
Far away, will our eyes now see the day
For today, the everlasting eternal sun
Far away, will our eyes now see the day
For today, the everlasting eternal sun
Washed away, the dreams of a brighter day
Forever hold the dream inside
The chance to fight another fight
The breaking hearts that stand for all our lives, live tonight
