Agenda

Ultraviolent

Using and abusing
They're swearing by a quote
From a book that was written 'bout
A thousand years ago
They say it's called peace although it's violence they promote
'Cause our eyes cannot sight
What our hearts cannot hope
And I can't help but think
That it just goes to show
How one fucking lie
Exists to fuck 'em all
It often makes me wonder who's really in control
'Cause they can take a fucking lie and shove it right down your throat

Reality
Society
It fuels the hate
Inside of me
Standing tall
We'll build a wall
That fuels the hate
Inside us all
Just run your mouth
Out loud to me
You're breaking in
Don't wanna speak
We'll build a wall
We're never gonna fall
If we can take on one
Then we can take 'em all

You don't understand
The point you're trying to stress
You take and you take
But that's all you're gonna get
Conveying all your shit
Via power of the press
Your bullshit reaches some
But means nothing to the rest

Almost pointless to resist
You're never gonna quit
You blame, and you blame
But you're never gonna quit
Creating more sides until the nation's fucking split
Media coverage appealing to the masses
