Break Away

Tokio Hotel

I've got other plans today
Don't need permission anyway
Here we're standing after all
With my back against the wall, against the wall
I put all the blame on you
'Bout me in all that I went through
You don't give me any choice
Now, I'm gonna make some noise, make some noise
I feel so claustrophobic here
Watch out, now, you better disappear
You can't make me stay
I'll break away, break away
I'm warning you, don't follow me
I won't miss you, can't you see
What you wanted, it didn't work
Go on digging in the dirt, in the dirt
Cold sweat on your brow
Now, you can hear me shout
The world is about to destruct
Now, I'm gonna pull the plug, pull the plug
I feel so claustrophobic here
Watch out, now, you better disappear
You can't make me stay
I'll break away, break away
No one counting all your lies
No more waiting for your goodbyes
It's too late, much too late
You are like a bitter pill
That I had to take against my will
I feel so claustrophobic here
Watch out, now, you better disappear
You can't make me stay
I'll break away, break away
I feel so, claustrophobic here
Watch out, now, you better disappear
You can't make me stay
I'll break away, break away
Break away, break away
