Again

Fetty Wap

I want you to be mine again
I know my lifestyle is driving you crazy
I cannot see myself without you
And all the things that you know we do
And now I'm on my way to please you
I go out of my way to see youAnd I want you to be mine again
I know my lifestyle is driving you crazy
I cannot see myself without you
And all the things that you know we do
And now I'm on my way to please you
I go out of my way to see you
I play no gameI'm a young nigga livin'
I ain't chasin' no pussy girl
I' m talkin' about the digits
Big bank rolls in my pocket all 50s
I don't give a fuck who can attach to my faith
You don't give a fuck who's still looking too good
And you try to finish what I started
I'm trying to spend it all who I got it with
She my trap queen
Better hit the bed
We be calling on
Watch it for the bands
She just jumped out the limo
All them bands up smooth the way we go
It's all up the window
Married to the money
I ain't never letting go
Throw all this to the window
I'm married Married to the money
I ain't never letting go
Throw all this to the windowwant you to be mine again
I know my lifestyle is driving you crazy
I cannot see myself without you
And all the things that you know we do
And now I'm on my way to you
I go out of my way to see youAnd I want you to be mine again
I know my lifestyle is driving you crazy
But I cannot see myself without you

And all the things that you know we do
And now I'm on my way to please you
I go out of my way to see you
I play no game
I need youI hope you know I need you
I get up all my needs
Yeah baby do everything to please you
Top-down when I please you
We livin' like the movie
And all the bitches go up
They know you're through it
Girl I need you baby
Tell me if you're with it
Big zoo up to the finish
When I come they're screaming out againI want you to be mine again
I know my lifestyle is driving you crazy
But I cannot see myself without you
And all the things that you know we do
And now I'm on my way to please you
I go out of my way to see youI play no game
I need you
