

Rejoice (feat. Black Motion)

Bucie

Baby I liked it when you told your boys
I'm with my woman, I'll be with my woman
This love has just begun
We've had our fights, we've shed our tears
(Never gonna let you go)
The way you love me gives me tears babe
Gives me a feeling that I cannot explain
You and me, all alone in this world .
I lose myself to the sound of your voice saying my name I cannot pretend, to be at peace
So baby please, love me for me
Put my heart at ease, don't watch me bleed
There's more of me, so just believe
(Never gonna let you go)
The way you love me gives me tears babe
Gives me a feeling that I cannot explain
You and me, all alone in this world
I loose myself to the sound of your voice saying my name Did you like it when, you heard my voice
Saying Ng'yakuthanda, ng'yakudinga
We had made a choice, to just rejoice
Got rid of greed, then we can be .(Never gonna let you)
The way you love me gives me tears babe
Gives me a feeling that I cannot explain
You and me, all alone in this world
I loose myself to the sound of your voice saying my name
I cannot pretend, to be at peace
So baby please, love me for me
Put my heart at ease, don't watch me bleed
There's more of me, so just believe Let me go, let me go no, just let me go .
