

# Eighteen Wheels

## The Bluegrass Cardinals

### Eighteen Wheels

When I put eighteen wheels on the highway this time  
I ain't never coming back to you again

I can't believe you told me  
You don't love me anymore  
Cause I stay out on the road too much to care  
Ain't I gotta make a living  
At the only thing I know  
Keep paying the bills and buying the clothes you wear  
If you think that you'd be better off  
With someone else besides you  
Pack your bags and head on out the door  
Cause when I service up my rig  
And I find out where I'm going  
I don't think I wanna see you anymore

### Chorus

When I put eighteen wheels on the highway  
And the freight yard fades out of sight  
I'll put you farther from my mind  
With each grinding of the gears  
I'll be holding someone else tomorrow night  
There's a pretty little girl down in Monroe  
Who'll meet me at the docks when I get in  
When I put eighteen wheels on the highway this time  
I ain't never coming back to you again

All I ever wanted when I came in off the road  
Was a few kind words to make me feel at home  
And a hug from all the children when I walk inside the door  
To let me know they miss me while I'm gone  
But you never once was faithful and I've known you for so long  
It's a different road we're traveling, you and I  
Don't you try to fool me with your tears  
Crying don't become you  
There ain't nothing left to do but say goodbye

Chorus
