Save My Soul

Doro

I was tempted

Like a desperate child

Sent out in the world to taste itIt was colder than steel

Frozen in fields

Emptied by the turning of pagesFalling like stone

Over and over

Falling alone

Hold on hold onLove, will save my soul someday

Love, will save my soul somedayTake me away

Take me so far away

Love will save my soul somedayI was trusted like a heart of gold

Walked out on this earth to make it

Yea, I'm better than bad

Stronger than sad

Harder than the rock of agesFallin' like stones

Over and over

Falling alone

Hold on, hold onLove, will save my soul someday

Love, will save my soul somedayTake me away

Take me so far away

Love will save my soul somedayFallin' like stone

Over and over

Falling alone

Hold on, oh hold onLove, will save my soul someday

Love, will save my soul somedayTake me away

Take me so far away

Love will save my soulLove, will save my soul someday

Love, will save my soul someday
