

I'm Talking To You

Busta Rhymes

Ladies and gentlemen, are you ready?

Yea

Are you ready to make some noise?

Put your hands together

I want everybody in here to stand up on your feet

Turn my music up

To make some noise

To make some noise

To make some noise

I want everybody in here to stand up on your feet

Ay-yo where Spliff at?

Theres about to be a problem now nigga

Once I captured the soul of the street its so hard for me to let go

Respect down at the techno, hear the stadium echo

Now its reaching a vile when the weakness is silent

Putting the fear of God in em while Im shifting the climate

The gladiator presence, everything about me giant

This the year of the dragon with a heart of a lion

Got em throwin their flag up, how I come to provide it

Now we makin em riot till we makin em try it

You can never deny it, how I came to prescry it

Then bangin with the ship like Earth and Jupiter collided

Then I came, Im remindin em, of how the spark ignited em

And conquered continents the size of Asia times five of em

And while I ride for them, you think its loud to them?

I give pride to them and get it rough with them

I hate the street that with you, it smell like earth burn

I captivate em with my first words, everybody

(Shout, shout, Im talking to you)

To make some noise

To make some noise

To make some noise

To make some noise

(Halla!) back to apply the pressure

Body up on the stretcher, Hot like a lotta Pepper

Most of you niggas off, cotton and polyester

You know how I go off, Legend like Robert Nesta

You know Im out to get you, take over large towns

And power to the Billies, couple cigar lounge

See how I make it pop? Knockin them all down
Watchin them all drown, this how the love sound
Your swag lost, you know you really need to look around
And try to find it nigga, searchin the lost/found
But I welcome the hate, my mother prayin for me
Got too much money to count, my niggas weigh it for me
Let me appraise you closely
They cant believe the way we busted up like its not the problem is we just playin homie
And when we in the spot, there wont be no delayin
Only to collect another trophy, now go 'head and say it for me
(Shout, shout, Im talking to you)
To make some noise
To make some noise
To make some noise
To make some noise
(Shout, shout, Im talking to you)
