Tremors

Two Tongues

My love, I lack the confidence
To say what's on my mind
I guess I'm prone to shaking, sweat
Confounded every time
I see you do the things you do
Pale and bright you shineBecause I need you here with me
I need you just to see me
I need you here with me
It is only a dream to meI knew that you could save my life
Without a word exchanged
Your way with words, so insecure
Can barely speak my name
My crumpled spine and faulty lines
I'm sick and small and strangeI need you here with me
I need you just to see me
I need you here with me
It is only a dream to meI saw you standing there, along with your guitar
Like I was staring into the mirror
Seeing the same sad scar
I want to reach into you, I want to hold you here
But the tremors in your body make it hard to sleepYeah, the tremors in my body
Make it hard to speak these wordsI need you here with me
I need you just to see me
I need you here with me
Yeah, it is only a dream to meI need you here with me
I need you just to see me
I need you here with me
Yeah, it is only a dream to meI saw you standing there
Along with your guitar
Like I was staring into the mirror
