Heartcrash

Marie Hines

Walk away, walk away
Its a shut down
We can try, we can try
Try to work it outBut you will say what youre gonna say, say
Oh you better believe it
Ooo, I wont stay, stay around for you to take
Take me down, down, downCause its a heart crash, a heart crash, a heart crash
We could pretend that its not the
Heart crash, a heart crash, a heart crashTake your aim, take a shot
Feel the kick back
I was quick, missed your mark
In the heart attackWe wont always see the snake in the grass
Coming back for us, for us, for us
But the lessons learned from the bridges burned
Stay with meA heart crash, a heart crash, a heart crash
We could pretend that its not the
Heart crash, a heart crash, a heart crashHeart crash, a heart crash, a heart crash
Take down, a break down, a back lash
Heart crash, a heart crash, a heart crashSometimes we only believe what we can think we see
From where were standing on our own two feet
Oh we only see what we know, we knowWhat good would it do just to send your heart in overdrive
You make a stand and find youre standing on the other side
What good would it do just to think that youd finally arrivedHeart crash, a heart crash, a heart crash
We could pretend that its not the
Heart crash, a heart crash, a heart crashHeart crash, a heart crash, a heart crash
Take down, a break down, a back lash
Heart crash, a heart crash, a heart crashHeart crash, a heart crash, a heart crash
Heart crash, heart crash
