

# All I Want

## DJ Prada G

Don't act surprised, it ain't like you didn't know  
It's been a long long time coming and it's time for me to go  
    Tryin' to split things up could drive us crazy  
    So I'm gonna make this easy, baby  
    You can have the money, you can have the house  
        Take the Cadillac and that boat out back  
        And your mother's pink and yellow couch  
    You can have every penny that I'll make from this here song  
        Girl all I want you to leave me is alone  
        Don't get me wrong I will always love you, girl  
    You were my life you were my heart, you were my world  
        But we both know it's over, there's no need to fight it  
        Girl I just need some peace and quiet  
    So you can have the money, you can have the house  
        Take the Cadillac and that boat out back  
        And that ugly pink and yellow couch  
    You can have every penny that I will make from this here song  
        Girl all I want you to leave me is alone  
        You can have the money, you can have the house  
        Take the big screen and your diamond ring  
    And those shoes that you swore you couldn't live without  
    You can have every penny that I will make from this here song  
        Girl all I want you to leave me is alone  
        Girl all I need you to leave me is alone
