

Coloured Rain

Traffic

Yesterday I was a young boy, searchin' for my way
Not knowing what I wanted, living life from day to dayTill you came along
There was nothing but an empty space and a pain
Feels like coloured rain, tastes like coloured rain
Bring on coloured rain, yeahI can see the sail of changing, filling with surprise
United with a feeling, bringing love into my eyesTill you came along
There was nothing but an empty space and a pain
Feels like coloured rain, tastes like coloured rain
Bring on coloured rain, yeah, yeah, oh, ooh
