Nothingface

Voivod

May I? May I? Valves plugs pump to erase

Rictus from my face

Lapse of time

Synchro freeze

Loop rewind

Forward speed

Will to walk

Crossed out feet

Fingers tall

Far from reach

Mind to talk

Still words bleed

Optic box

Melted through

Sonic shock

Silent clue

Drop by drop

Drain-out tube

I hope, I need

I want to dream

Cold choke choke cold

I float unseen

Outside the screen

Cold choke choke cold

A wish, extreme

Awaiting the stream
