

# Right of Way

[Ari Hest](#)

I've been hanging around this place too long  
I get satisfied and then I'm gone  
You break me down and then you treat me low  
Like a love you won't bestow  
On me [x2]  
These feelings I have can't be wrong  
The signs say -  
I've got the right of way  
Self-destruction is my destination  
This is how it pains my days  
With mixed emotions - even lies  
You make me break all ties to these ways  
You lay this guilt on me  
On me [x3]  
These feelings I have can't be wrong

The signs say -  
I've got the right of way  
You take me seriously when I'm playing the part  
Oh, the man with the shattered start  
You break me down and then you treat me low  
Like the love you won't bestow  
On me [x4]  
These feelings I have can't be wrong  
The signs say -  
I've got the right of way  
You've got to break it, break it to me  
You got to break it to me easy  
[repeat and fade to end]
