

# Flying Feeling

## Crash Test Dummies

I'm going to the quick of the nail  
I'm going to the bone  
I'm gonna sharpen up my steel  
I'm lookin for the blood in the stone I wanna get that flying feeling  
I can't leave it alone  
I wanna get that flying feeling  
I can't leave it alone I'm gonna burn one and get it goin' on  
Your pretty little hand on my wheel  
I'm gonna get on my accelerator  
And show you how good I feel I wanna get that flying feeling  
I can't leave it alone  
I wanna get that flying feeling  
I can't leave it alone I'm gonna find my way right to that hot spot  
I'm gonna be the one  
I'm gonna get my face right in there  
I'm gonna get it done I wanna get that flying feeling  
I can't leave it alone  
I wanna get that flying feeling  
I can't leave it alone
