

# Revolt

## Sepultura

This is the trench that never surrenders  
Fighting the front attacking their nest  
All out, holding our flag  
All out, ruling our path Our revolt This is the trench that never surrenders  
This is a strike that targets an answer  
Heads up, confronting the task  
Heads up, we're wearing no mask Look inside the truth It's our revolt  
It's our revolt
