My Apology

Donell Jones

Oh why, oh why, oh why you let me do the things I do
But you never did it to me?
I can't believe that I could treat my baby so uncool
All she ever wanted was meMany nights I watched her cry from silly shit I put her through
Like havin' females callin' the crib
Wish that I could just rewind all the years
I hurt ya boo, oh yeahIt's the Gemini in me, got split personalities
It's Doctor Jekyll and Hyde with me, I'm a provider G
Bills paid on the first you see, you keep a pocket full of currency
You said you'd never leaveNow you tryna turn ya back on me
I understand you got no trust in me but I'll change for you
If you promise that you'll stay with me
Please accept my apologyLooking back I know that I physically neglected you
'Cuz we wasn't havin' no sex
Many years screamed and yelled, ranting and raving like a fool
Mentally abusing youI hope it's something left inside 'cuz girl I wanna be with you
Got to know I'm willing to change
Wish that I could just rewind all the years
I hurt ya booIt's the Gemini in me got split personalities
It's Doctor Jekyll and Hyde with me, I'm a provider G
Bills paid on the first you see, you keep a pocket full of currency
You said you'd never leaveNow you tryna turn ya back on me
Understand you got no trust in me but I'll change for you
If you promise that you'll stay with me
Please accept my apologyBaby
It's the Gemini in me
Don't you leave
It's the Gemini in meDon't you leave
It's the Gemini in me
Don't you leave
It's the Gemini in me
Don't you leaveIt's the Gemini in me got split personalities
It's Doctor Jekyll and Hyde with me, I'm a provider G
Bills paid on the first you see, you keep a pocket full of currency
You said you'd never leaveNow you tryna turn ya back on me
Understand you got no trust in me but I'll change for you
If you promise that you'll stay with me
Please accept my apologyIt's the Gemini in me
It's the Gemini in me

Don't you leaveIt's the Gemini in me
It's the Gemini in me
Don't you leaveIt's the Gemini in me
It's the Gemini in me
Don't you leaveBaby, I'm gonna change for you
If you promise that you'll stay with me
Please accept my apologyBaby girl don't leave
Oh why, oh why
