

Clone Cycle

Marnie Stern

Holding back will be forgotten
Holding back will be forgotten

1 the point the center
2 the pair, mirror image symmetry
3 the vertices of the triangle. The primitive series. Unstable, open, the air.
4 the square, stability, the ground, the cycle ended
The more plastic the the expression
The more fundamental the symbol.

One is hard, to be alone.
One is hard, but one is bold.
Two is boring, it's hard to grow
Two is boring, it's hard to grow
Three the vertices of the triangle
Three the vertices of the triangle
Three the vertices of the triangle
Four, the square, stability, the ground.
The cycle ended.
Four, the square, stability, the ground.
The cycle ended.

If I'm in a trap, and the cycle's ending..
My time is up, the sun is coming
The hope's in a million trials
To count for something
To break the mold in cycle

So i rearrange
And I don't mind the change, I don't mind the change.

And from the bottom up you must draw,
Where blue is the distance
and no one can come along.

Holding back will be forgotten
Holding back will be forgotten
