Smell the Roses

Josh Taerk

Verse: 1
Sitting here at a crossroad baby
Hoping for a sign to guide me maybe I should
Stop tryin to turn water into wine and
Start looking for some piece of mind

Verse: 2
We keep searching for the ultimate better
But lose ourselves in the long run whether itâ€™s
Work or Cocaine weâ€™ve all got an addiction,
We lose ourselves when we accept our convictions now

Chorus:
We fight wars for peace
And have sex for keeps
We sit in our schools listenin to
Someone elseâ€™s robotic rules

We try and stay alive
Through these harder times with these harsher minds
When all we want to do is
Just smell the roses

Verse: 3
Racin around like rats in a maze
Hopin for epiphanies within our daze
If itâ€™s true what they say we see better when blind
Forget it all babe we should be seein all the time

Chorus:
We fight wars for peace
And have sex for keeps
We sit in our schools listenin to
Someone elseâ€™s robotic rules

We try and stay alive
Through these harder times with these harsher minds
When all we want to do is

Just smell the roses

Bridge:

You gotta find your inventor
And it might not be today
Canâ€™t be caught under a shadow
Gotta lead your own parade

Youâ€™ll find that words that held such meaning
Like pride that held you in chains
Wonâ€™t mean much when life keeps turning
Cause words can always be erased

Chorus:
We fight wars for peace
And have sex for keeps
We sit in our schools listenin to
Someone elseâ€™s robotic rules

We try and stay alive
Through these harder times with these harsher minds
When all we want to do is
Just smell the roses
Just smell the roses
