Fix It

Ryan Adams & The Cardinals

What makes them walk away, after all these years?
These years of learning in the hard way
By the lessons from the tears
I know it's not a game
But it feels like losing when someone
You love throws you away
I'd fix it, I'd fix it
I'd fix it, I'd fix it if I could
And I'd always win, I'd always win
I always win the in end
How easy was it for you making those plans you made?
Before I became something for you
You know to try to dislocate
But, I know it's not a game
But if feels like losing when someone
You love throws you away
I'd fix it, I'd fix it
I'd fix it, I'd fix it if I could
And I'd always win, I'd always win
And you'd always lose
Look what I did to you, look what you did to me
Fixed it, fix it
I'd fix it if I could
And I'd always win, I'd always win
I'd always win in the end
