

It Only Took a Kiss (feat. Meaghan Smith)

Big Bad Voodoo Daddy

Male:

It only took a kiss, to know this,
baby im in love with you,
one look, is all it took,
to say i do.

And baby when you smile,
Id walk a mile, oo just to be with you
for a chance, at that glance,
that says me too,
so when it comes to those other guys,
this may come as no surprise,
I dont get jealous, I dont worry,
Cause i love you

female:

It only took a kiss, But what a kiss,
and baby i love you,
What a look, o your look,
that says i do,
and baby i agree, id rather be,
no where else but here my dear,
theres no place,
i feel so safe, than here with you.

Its like finding a penny and picking it up,
and all day youll have good luck.

It only took a look, it only took a smile, it only took a kiss.

male:

It only took a kiss, to know this,
baby im in love with you,
one look, is all it took,
to say i do.

And baby when you smile,
Id walk a mile, oo just to be with you
for a chance, at that glance,
that says me too,

Male female:

So please believe me when i say, id never felt this way
and trust me with your heart,
i knew right from the start.

male:

It only took a look, it only took a smile, it only took a kiss.

Female:

It only took a look, it only took a smile, it only took a kiss.

male female:

It only took a look, it only took a smile, it only took a kiss.
