On & On

Number One Gun

Could you be my answer
Could you tell me that I am
The perfect one for you
You're the perfect one for meCould you be too faithful
Could you show me anymore
It's the perfect thing to do
It's the perfect thing for meOn and on I see you
The life that comes together
To see that we're forever
On and on I see you
The times we've spent together
The times that last foreverAnd now we will find our way
It's the way that we'll find this day
And I know you belong to meCould you lead me on
