Broken World

Millencolin

While in the middle of the winter it's summer
Then in the middle of summer it's freezing cold
And I wonder who's wet behind their ears?
A broken world, well, ain't that a bummer?
To get from mammoth to pizza
Took us 27,000 well spent years
I'm gonna get out of the broken world
I'm just about to discover new land
Get out of the broken world and start a ban
Turn on the TV I see troubles of mankind
There is a weird old man who's saying
"I'm the decider, you've gotta stay that course"
All of a sudden I've got Shakespeare on my mind
All of a sudden Richard goes
"Horse, a horse, my kingdom for a horse"
I'm gonna get out of the broken world
I'm just about to discover new land
Get out of the broken world and start a ban
I'm gonna get out of the broken world
I'm just about to discover new land
Get out of the broken world and start a ban
I'm gonna get out of the broken world
I'm just about to discover new land
Get out of the broken world and start a ban
Get out of the broken world
Get out of the broken world
Get out of the broken world
Get out of the broken world
Get out of the broken world
Get out of the broken world
Get out of the broken world
Get out of the broken world
