

Quick

Eddie from Ohio

I wanna be quick, move at light speed
Never grow up, never come down
I wanna be small, walk with small feet
Treading the space just above ground Quick as I can, quick as a cat
Quicker than sand, quicker than that
I wanna be young, wanna be beautiful
Making a small beautiful sound Albert Einstein was never good at Math
But he found time down a curving path
The faster you go, the slower you grow
The less that you have to fall The faster you go, the slower you grow
Until you weigh nothing at all
Nothing at all, nothing at all I wanna have girth, I wanna have mass
It's the new weight-loss plan
I wanna run free, wanna run fast
Go on and catch me if you can Quick as a shark, quick as a blink
Quick as a thought, quicker than you think
I wanna be scarce, out of sight
I am light's biggest fan Albert Einstein was never good at Math
But he found time down a curving path
The faster you go, the slower you grow
The less that you have to fall The faster you go, the slower you grow
Until you weigh nothing at all
Nothing at all, nothing at all Richard Petty, Richard Petty, Richard Petty
Ain't got nothing on me I wanna be quick, move at light speed
Never grow up, never come down
I wanna be small, walk with small feet
Treading the space just above ground Quick as I can, quick as a cat
Quicker than sand, quicker than that
I wanna be young, wanna be beautiful
Making a small beautiful sound Albert Einstein was never good at Math
But he found time down a curving path
The faster you go, the slower you grow
The less that you have to fall The faster you go, the slower you grow
Until you weigh nothing at all
Nothing at all, nothing at all
