

Heartburn

NLT

Heartburn Wish somebody knew what I was going through
I need a doctor to tell me what I should do
'Cause she's killing me, it's hard to sleep
Ain't no prescription made to treat what I got She hit me with it, with it
And she let me get it, get it
Hope it's something good like this
Make me feel so sick Tell me why oh why
She had to set my heart on fire Ooh, she's a heartburn
And every time I see her
She makes my heartburn
I'm all messed up for real I'm telling you she's hot
The way she moves her body
The way she shakes her body
She's ha, ha, ha, ha, ha, ha, ha, ha
Ooh, she's heartburn Yeah, it's kinda strange I've been here before
Know it's bad but I still come back for more
Guess I'm a fool 'cause I'm stuck on you
And I don't care 'cause I just want what you got She hit me with it, with it
And she let me get it, get it
Hope it's something good like this
Make me feel so sick Tell me why oh why
She had to set my heart on fire Ooh, she's a heartburn
And every time I see her
She makes my heartburn
I'm all messed up for real I'm telling you she's hot
The way she moves her body
The way she shakes her body
She's ha, ha, ha, ha, ha, ha, ha, ha
Ooh, she's heartburn Ooh, she's a heartburn
And every time I see her
She makes my heartburn
I'm all messed up for real I'm telling you she's hot
The way she moves her body
The way she shakes her body
She's ha, ha, ha, ha, ha, ha, ha, ha
Ooh, she's heartburn She's burning my heart and I can't take no more for real
She's burning my heart and I can't take no more for real
She's burning my heart and I can't take no more for real
She's burning my heart and I can't take no more for real She's burning my heart and I can't take no more for real

She's burning my heart and I can't take no more for real
She's burning my heart and I can't take no more for real
