Everyday easy come easy go  
Living this life it no easy though  
Even in London we do it to function  
They're moving that dark and oyinbo  
Eat pounded yam and some ogbono  
Prepping myself for another show  
Haters they front they see me there stunting I just tell them  
Baby nah Jongolo

You see my Ankara, You see the designer nah big girl attire  
If you deh see my desire, you know that I need to Inspire  
So I Just aspire to let go retire  
I tell them do devils nah liar

I come from the struggle my boys yeah they hustle  
We getting the money now  
You know that we go in the figures are showing  
Whenever you see me out  
It's done If I do It they feeling the movement  
They know that we get about
