

# Stay Another Season

## The Free Design

Thank you for coming out this evening,  
Thank you for coming down on a Sunday  
We have a good time with you  
We want you to park with it  
Come on down to the disco, right, right right right ...???  
Since I left you, I found the world so blue  
Since I left you, I found the world so blue  
Since I left I left left..  
Since I left I left left..
