

Tyranny of Will

Iron Reagan

Hidden agendas

Informing the world of made up facts you use to push your views
With tireless effort
You see nothing wrong to mislead millions to their foreseen doom
This war machine fueled only by lies
Forcing skeptics to run for their lives
With tireless effort, endless ammunition
A cycle of hate with non-stop repetition
I call bullshit on it fucking all
And you should too before its all gone
They're just lying to steal the world
