

Two Cigarettes Out of Memphis

[J.K. Coltrain](#)

Spent most all my life playin' music from town to town
You spent almost half of yours hopin' that someday I'd settle down
And heaven only knows all the hell I musta put you through, put you through
I'm just two cigarettes out of Memphis, but I'm a million miles from you
Chorus Two cigarettes out of Memphis
but I'm a million miles from you
I called to say I was comin' home and you told me I had no home to come home to
And I can't stop this pain no more than I can stop this rain I'm drivin' through, drivin' through
I'm just two cigarettes out of Memphis but I'm a million miles from you
I know it must have been hard on you
livin' someone else's dreams
Specially when that dream ain't never comin' true, or so it seems
And I can't say I blame you for finally givin' up and saying that we're through, we're all through
Now I'm just two cigarettes out of Memphis but I'm a million miles from you
Chorus Two cigarettes out of
Memphis but I'm a million miles from you
I called to say I was comin' home and you told me I had no home to come home to
And I can't stop this pain no more than I can stop this rain I'm drivin' through, drivin' through
I'm just two cigarettes out of Memphis but I'm a million miles from you
(tag) Lord I'm just two cigarettes out of
Memphis but I'm a million miles from you
