

Sadie

Blitzen Trapper

Sadie
Make her stay
If only
For another day
Shoulder blades and sunlight
It never seems to feel right
Sadie I
I can never change yeah
I can never change
For to change is to allow the power to rearrange the wreckage of our hearts
Sadie
Whats the score
In writing above the door
Sadness rides along
The road we're
Traveling on
Cause Sadie I
I can never change yeah
I can never change yeah
I can never change So take your own advice
You better think twice when you find your love is gone
And like the sun it waits for none
I know its true but I don't have a clue
What'd you want me to do? So Sadie make a stand
If only for another weekend
The stage is swept the props all gone
And I'm left here with nothing but this cheap love song
Cause Sadie I
I can never change, yeah
I can never change, yeah
I can never change, yeah

I can never change, yeah For to change is to allow the power to rearrange the wreckage of our hearts, our hearts.
