

Kiss Me Bliss Me

2 Unlimited

Kiss me, bliss me, baby, put love on the loose
Kiss me, bliss me, baby, you've nothing left to lose
Kiss me, bliss me, baby, put love on the loose
Kiss me, bliss me, baby, you've nothing left to lose
This is it, is one from the heart
A call to you to tear my life apart
Kiss me, bliss me, send me all you've got
Send me vibes, give me something hot
Understand, this is no game
No tame way to take a dame
Take a chance, girl, run my wave
Join my rave, baby, let's play slave
A sweetheart, with a body of ice
You might be cold but I can see you're nice
[Incomprehensible], baby, give a guy a chance
Be my baby, I'ma ask you to trance
I know what you feeling, I've been there before
I know what you feeling, boy, you're crying out for more
Kiss me, bliss, me, baby, you've nothing left to lose
Kiss me, bliss me, baby, put love on the loose
Maybe, maybe sometime, baby
Sometime soon you'll be my lady
Can't hang around, got dreams to dream

So beam me up to the starship scream
We're talking skin, we're talking flesh
The kinky souls that makes you fell fresh
Maybe, maybe feel the fun
Sharing vibes just one on one
Sweetheart, you have a heart of ice
It might be cold but I can see you're nice
[Incomprehensible] baby, have I got a chance?
Be my baby, I'ma ask you to trance
I know what you feeling, I've been there before
I know what you feeling, boy, you're crying out for more
Kiss me, bliss, me, baby, you've nothing left to lose
Kiss me, bliss me, baby, put love on the loose
I know what you feeling, I've been there before
I know what you feeling, boy, you're crying out for more

Kiss me, bliss me, baby, you've nothing left to lose
Kiss me, bliss me, baby, put love on the loose
Nothing left to lose
Put your dancing shoes on, oh, yeah
Kiss me, bliss me, baby
I know what you feeling, you're coming back for more
