Break You Down

Blue

(Intro)
Break you down
Break you down
(Verse)
In you ?cause your life
And just feel aside all the things you like
Baby ?cause we?re gonna do it tonight
We?re gonna do it tonight
So tell me all the lies
Gotta get it right
On the candle light
Girl, I?m gonna do it tonight
We?re gonna do this all night
(Bridge)
You gotta get your body ready when you get off in the step
?Cause I?mma give it to you like you never ever had it before
Give it to you til you can?t take it no more, take it no more
(Chorus)
Tell me where you want me
Baby, tell me where you want me
Girl it?s your body I?m craving, I?m needing you baby
I don?t wanna wait, I wanted you to tell me
?Cause baby and I know you like it
So don?t you even try to fight it
(Interlude x3)
Girl I break you down
Girl I girl I break you down

Girl I break you down
Girl I girl I break you down
(Verse)
I?m gonna put your legs behind my head
I knew my down, you ain?t gotta feel no less
?Cause we gotta do it tonight, do it tonight
(Interlude)
I want your body on my body, body on my body girl
Body on my body, body on my body girl
Do it tonight, do it tonight
(Bridge)

You gotta get your body ready when you get off in the step
?Cause I?mma give it to you like you never ever had it before
Give it to you til you can?t take it no more, take it no more
(Chorus)
Tell me where you want me
Baby, tell me where you want me
Girl it?s your body I?m craving, I?m needing you baby
I don?t wanna wait, I wanted you to tell me
?Cause baby and I know you like it
So don?t you even try to fight it
(Interlude x3)
Girl I break you down
Girl I girl I break you down
Girl I break you down
Girl I girl I break you down
