Huntar

I'm not waiting up
I just cannot sleep at night
And I know it's dark
But it won't help me ease my mind
If I chase these shadows
All around an empty room
Can I speak to these walls
Will they tell me any truth
And you're holding up
I'm holding up
We're holding up
All those times we're making up
Waiting up
Breaking up
If I let it slip,
I'm dangerous
So scandalous
Just dangerous
Would I lose my grip and give you all?
I just wanna touch your skin
Hear your words
Take them in
I dont wanna let this go
Give it up
Lose control
I know this is moving fast
Heating up
Might not last
I just wanna touch your skin
Are you ...
Where others didn't treat you right?
Cause i know its hard
To open another door in life
Would it be so tough to let somebody by your side
Are you fuelled by lust?
So hungry to be satisfied
And you're holding up
I'm holding up
We're holding up

All those times we're making up
Waiting up
Breaking up
If I let it slip,
I'm dangerous
So scandalous
Just dangerous
Would I lose my grip and give you all?
Cause I just wanna touch your skin
Hear your words
Take them in
I don't wanna let this go
Give it up
Lose control
I know this is moving fast
Heating up
Might not last
I just wanna touch your skin
Skin Why're you always on my mind?
Why're you always on my mind?
So why're you always on my mind?
I just wanna touch your skin
Hear your words
Take them in
I dont wanna let this go
Give it up
Lose control
I know this is moving fast
Heating up
Might not last
I just wanna touch your skin
Cause I just wanna touch your skin
Hear your words
Take them in
I dont wanna let this go
Give it up
Lose control
I know this is moving fast
Heating up
Might not last
I just wanna touch your skin
