Baby's On Fire

Skyhead

Learnt me to rock an' I learnt me to roll
Ya gotta use it baby to keep your soul
Go down to town, get some reaction
Gotta go down 'cause I need a distraction
I've been tryin' it on with everyone in sight
She's been waitin' so long for me to come tonight
Hey, may I know
Baby's on fire and I'm burnin' up
Sparks been flyin' an' she can't get enough
Can't get enough but she's got what it takes
Baby's on fire and I got the shakes, oh yeah
Oh, there ain't no cure and there ain't no time
You gotta have it and have it fine
Don't say a word about her affections
I'm gonna come from another direction
She's been tryin' it on with everyone in sight
I've been waitin' so long for her to come tonight
Yeah, yeah, yeah
Baby's on fire and I'm burnin' up
Sparks been flyin' I can't get enough
Can't get enough but she's got what it takes

Baby's on fire and I got the shakes
Baby's on fire and I'm burnin' up
Sparks been flyin' I can't get enough
Can't get enough but she's got what it takes
Baby's on fire and she's got the shakes
Can't get enough
Sweet, sweet ma
I'm coming 'round
So get your [Incomprehensible]
Oh, baby's on fire and I'm burnin' up
Sparks been flyin' I can't get enough
Can't get enough but she's got what it takes
Baby's on fire an' I got the shakes
Baby's on fire and I'm burnin' up
The sparks been flyin' Lord I can't get enough
Can't get enough but she's got what it takes
Baby's on fire an' she's got the shakes

Baby, baby, baby's on fire
Ooh, she can't get no high
Baby, my baby, my baby's on fire
Oh, she's burning like fire
