

# Spout Mouth

## He Is Legend

You've got me wild  
like a child  
like a cartoon wolf  
i know the game  
you play  
you're up to no good  
you've got me wild  
Honey Child  
on your pheromone  
i float alone You run your mouth like a spout  
Make me put holes in the way  
if you keep calling me out  
i'm gonna pull your card  
Your house is gonna falli don't need to huff and puff  
to prove my breath is strong enough My eye bulge out  
my tongue rolls down  
your pheromones  
they make me float  
you drive me wild. You run your mouth like a spout  
Make me put holes in the way  
if you keep calling me out  
i'm gonna pull your card  
Your house is gonna falli don't need to huff and puff  
to prove my breath is strong enough Fed up being the only one  
so sick and so unsung  
it's over now  
it's said and done. (It kills me. It chills me to the bone) You've got me wild  
like a child  
like a cartoon wolf  
i know the game  
you play  
you're up to no good  
you've got me wild  
Honey Child  
on your pheromone  
i float alone
