

# She's Got Everything

## White Lion

I went to a party with a friend of mine  
Had a couple of beers and a bottle of wine  
There were plenty of women dancing everywhere  
They were dressed to kill and knew what to do  
She was so outstanding  
I just had to make her mine  
She could read me like a letter  
I had one thing on my mind  
She's got everything and I want it  
Every little thing she's got is fine  
She's got everything and I want it  
Every little thing she's got is mine  
So we left the party and went to her place  
You could see excitement written on my face  
So she took me upstairs laid me on her bed  
When she got undressed, I just lost my head  
There were twenty years of woman  
There was more than I could eat  
She was ready, ripe 'n' willing

I just knew she'll taste so sweet  
She's got everything and I want it  
Every little thing she's got is fine  
She's got everything and I want it  
Every little thing she's got is mine  
She was like a fire, she burned like a flame  
She cried out my name in her claim to fame  
Then I saw her smiling from her pretty eyes  
She said little boy, we've got work to do  
Put the log into the fire  
And bullets in the gun  
You'll get what you desire  
'Cause the night has just begun  
She's got everything and I want it  
Every little thing she's got is fine  
She's got everything and I want it  
Every little thing she's got is mine
