Somewhere There's a Someone

Jason Lytle

Write my name on a map
And ask the ranger where I'm at
Mark an X on the spot
That place that we both loved a lot
Now turn around and head for town
And hope tonight I might keep warm
Well I'll keep warm this much is true
And I'll keep thinking of you tooAnd somewhere there's a someone
Who's wondering where I am
And somewhere there's a someone
Who tried to understand
And somewhere there's a someone
Who wants to know if I'm alright
But somewhere there's a someone
With someone else tonight
With someone else tonightDraw my face on your map
And ask your ranger where I'm at
Mark an x by the stream
It's roughly where I was last seen
Now turn around 'cause now the sun is going down
And hope tonight I might keep warm
Well I'll keep warm this much is true
And I'll keep thinking of you tooAnd somewhere there's a someone
Who's wondering where I am
And somewhere there's a someone
Who tried to understand
And somewhere there's a someone
Who wants to know if I'm alright
But somewhere there's a someone
With someone else tonight
With someone else tonight
With someone else tonight
With someone else tonight
