

# What's Following the Grave

## Bloodgood

Are you lost this evening  
Can't you trust anyone at all?  
There's a heart that's beating  
While the hands are writing on the wall  
You're afraid of bleeding  
That's the life that's flowing through your veins  
But your soul is needing  
You're not sure what's following the grave  
What's following the grave  
What's following the grave  
What's following the grave  
What's following the grave  
Don't you try to break away  
From the One who's standing at your door  
All He wants is to save you  
After all...you were bought and paid for!  
What's following the grave  
What's following the grave  
What's following the grave  
What's following the grave  
If you know Him there'll be life!  
If you don't there'll be separation!  
If you know Him there'll be life!  
If you don't there'll be separation from my God!  
Oh Lord they're gonna die without the blood  
Without the blood of Jesus Christ!  
What's following the grave  
What's following the grave  
What's following the grave  
What's following the grave[Music & Lyrics: Les Carlsen and David Zaffiro]
