

# Kids Today

Tim McGraw

Want something different than our mommas and our dads  
Growing up ain't easy in a world that's going mad  
Want to call music that we can call our own  
Misunderstood, up to no good, and blamed for being stoned  
Holes in our stories and tattoos on our skin  
Sometimes standing out's the only way we can fit in  
Somewhere in the future we'll be running from our past  
Well we don't know no better, we just want to make it last

Kids today, young and crazy, making all the same mistakes  
Thinking, baby, all we've got is time to waste, and hearts to break  
Bending rules, there's nothing like that live forever attitude  
Get caught up in the good old days until they're gone  
Ain't nothing wrong with kids today

We don't listen, but we hear more than you think  
Gonna learn the hard way how to love and how to drink  
No we don't want to wait for anything worth waiting for  
We ain't doing nothing that ain't been done before

Kids today, young and crazy, making all the same mistakes  
Thinking, baby, all we've got is time to waste, and hearts to break  
Bending rules, there's nothing like that live forever attitude  
Get caught up in the good old days until they're gone  
Ain't nothing wrong with kids today

Ain't nothing wrong with having fun  
And running from the life we don't know's about to come

Kids today, young and crazy, making all the same mistakes  
Thinking, baby, all we've got is time to waste, and hearts to break  
Bending rules, there's nothing like that live forever attitude  
Get caught up in the good old days until they're gone  
Ain't nothing wrong with kids today
