

I Can Feel You

Delilah

Hold your breath don't cry they're coming
Tainted secrets *don't die* they're coming

And if you wait for dawn to fade

You should see the dark

And as the gold defines your pain

[Chorus:]

I can feel your heart

Open from the start

I can feel your soul

Yearning to my call?

I can feel you

Hold my hand don't hide cos they're comin

Fallin angels fly by and they're comin

So if you wait for dawn to fade

You should see the dark

And as the gold defines your pain

[Chorus:]

I can feel your heart

Open from the start

I can feel your soul

Yearning to my call?

I can feel you

I can feel your heart

Your heart

I can feel you
