## I Can Feel You

## **Delilah**

\*Tainted\* secrets \*don't die\* theyre coming

And if you wait for dawn to fade

You should see the dark

And as the gold defines your pain

[Chorus:]

I can feel your heart

Open from the start

I can feel your soul

Yearning to my call?

I can feel you

Hold my hand dont hide cos they're comin
Fallin angels fly by and theyre comin
So if you wait for dawn to fade
You should see the dark
And as the gold defines your pain

[Chorus:]

I can feel your heart

Open from the start

I can feel your soul

Yearning to my call?

I can feel you

I can feel youre heart

Youre heart

I can feel you
