Faithfully

John Berry

Some say it's just the nature of the beast
When you love somebody so passionately
Time has a way of stealing the raging fire feeling
Leaving the ashes laying at your feetThose fools with little faith will never know
Those higher places two hearts can go
Where time is standing still and love will burn until
The heavens and the earth have come and goneThis fire inside for you, is constant as the northern star
And you will be forever in my heart
As long as there's a river searching for an endless sea
I will always love you faithfullyTonight we'll raise a glass to lovers across the ages
We'll hold each other and toast to the day
When history's said and done and we'll still stand as one
Some things were never meant to fade awayThis fire inside for you, is constant as the northern star
And you will be forever in my heart
As long as there's a river searching for an endless sea
I will always love you faithfullyThis fire inside for you, is constant as the northern star
And you will be forever in my heart
As long as there's a river searching for an endless sea
I will always love you faithfully
