Clone

The Color Red

There's a new way out of here
It's called deception
It makes you feel you're alone again
There's a new way out of here
I fight direction
It makes me grow
And keeping me feelingWish I had another you to lie to
Everyday making the wrong the right way
Everyday making the wrong the right way
And I don't use directionThere's a new way out of here
It's called deception
It makes me grow
And keeping me feelingWish I had another you to lie to
Everyday making the wrong the right way
Everyday making the wrong the right way
And I don't use direction
