

# Clone

## The Color Red

There's a new way out of here  
It's called deception  
It makes you feel you're alone again  
There's a new way out of here  
I fight direction  
It makes me grow  
And keeping me feeling Wish I had another you to lie to  
Everyday making the wrong the right way  
Everyday making the wrong the right way  
And I don't use direction There's a new way out of here  
It's called deception  
It makes me grow  
And keeping me feeling Wish I had another you to lie to  
Everyday making the wrong the right way  
Everyday making the wrong the right way  
And I don't use direction
