## Amebix

Rise into the light
And set a flame to the night
We must destroy the institution of fear
Every shadow of doubt
Grind it out
There is a vision now becoming so clearCH: Use your head
Take control
Use your head
No Gods, no mastersFeel the strength from within
do you believe it's a sin
To find the power lying inside your mind
Not from the cross or the gun
Not from the moon nor the sun
But rising from the very soul of mankindCH: Use your head
Take control
Use your head
No Gods, no mastersWe are straining at the leash !We swear allegiance to noneBe not become
There is no one upon whom praise we will shower
I believe that the sinIs the first to give in
On the path towards the ultimate power
