Push Up

Freestylers

Advisory - the following lyrics contain explicit language:

I think I saw your body 'fore I saw your face
The kinda moves you made were rockin' up the place
Then your favorite song came on, the one you love
You came over to me, looked me in the eyes and said for sureYou had your hands all over my body tonight
You didn't care about respectability
People staring 'cause you really made a scene
It must have looked like we were doin' it for real
You saidWhere I come from we don't play around
And when it's time to party, we know how to get down
And where we're goin' baby, you don't have to worry 'bout a thing
Take my hand, move your body up and downAnd push up
Your body, your body next to mine
Push up
I gotta make that sexy booty minePush up
And shake it, baby shake that ass
Push up
I love it when you feel like getting nastyJust like a drug, you rock with my reality
You were a figment of my sexuality
I know you're capable of blowing out my mind
So excuse me when you talk to me, you seem pre-occupied'Cause where I come from, we don't play around
And when it's time to party, we know how to get down
And where we're goin' baby, you don't have to worry 'bout a thing
Take my hand, move your body up and downAnd push up
Your body, your body next to mine
Push up
I gotta make that sexy booty minePush up
And shake it, baby shake that ass
Push up
I love it when you feel like getting nastyWhere I come from, no, we don't play around, no, no
And where I come from, yeah, we get down, we get down
So move your body up and downAnd push up
Your body, your body next to mine

Push up
Gotta make that sexy booty minePush up
And shake it, baby shake that ass
Push up
I love it when you feel like getting nastyPush up
Your body, your body next to mine
Push up
Gotta make that sexy booty minePush up
And shake it, baby shake that ass
Push up
I love it when you feel like getting nasty
